AURORA ROCK

ABOUT US

We are known to provide the best quality of laminates, and we offer a wide range of products to satisfy the needs of our customers of every kind. pioneering the market for laminates for over a decade, Dixon has now entered the market for other types of laminates, such as metal foil laminates, abrasion-resistant laminates, dry wipe market board laminates, chalkboard laminates, post-forming laminates, digitally printed laminates, and door skins.

Our laminates are manufactured keeping the quality in mind. That's why we have been accredited with ISI 2046:1995, ISO 9001:2008 and ISO 14001:2004 and certified with british european standards (BS EN 438) and NEMA standards (ANSI-NEMA LD 3) Our 7 point quality control system enables us to check each sheet that manufactures in our units by processing them under seven different quality check pints.

In order to further guarantee the quality of our finished products, we take extreme care in sourcing raw materials of the highest quality. Our raw materials are acquired from industry leaders throughout the world, including conutries such as U.S.A., Italy, France, Germany, Belgium, Japan and Malaysia and this helps us in reaching out to the global market.

PRODUCT WARRANTY
Company provides warranty that the product is free from any manufacturing defects and is suitable to use for normal and usual purpose. In case of any visual defects, the product should not be used, cut, or altered in any manner. Company liability will be limited to the extent the cost of product only. The colour/shade may vary from lot to lot. do inspect properly before using the product. Company will not entertain any claim if the product is cut or altered in any manner for any visual or appearance, shade change/difference.
Our standard Decorative Laminates are GOLD PRESS GRADE LAMINATES, Which are recommended for cold pressing only. Company will not entertain any claim of quality if the Laminates are pressed in HOT PRESS. HOT PRESSED GRADE laminates are available against Special Order.
“Formation of Air Bubbles and forming of Corner Cracks are application fault, Company do not entertain these complains”

PRODUCT CARE & MAINTENANCE
For cleaning surface of the laminates, use dry cloth to wipe the stains. If needed ordinary liquid detergent (non-acidic) or ammoniated liquid can be used. After taking a trial on small portion Stain remover or industrial organic solvent can be used to remove stubborn stains in case if there is no problem. One should not use, wire or hard-plastic brushes, and abrasives to clean the surface.
Since, conventional laminates are made for interior decorations, should not be used for external use where there are chances for direct exposure to sunlight or any other sort of direct heat.
It is always recommended to keep the substrate horizontal while pasting the laminates. Immediate removal of pressure and vertical application should not be practiced. Samples pasted in the folder represent the finish & design and not the actual thickness.

PRODUCTION TECHNICAL DATA & SPECIFICATION	
Type	Conventional Laminates (Other Grades available on request)
Range	Dixon - 1mm (±10% As per international standard) (Other thickness available on request)
Size	1220mmx2440mm (8'x4')
Product Standard	Comprising to British European Standard: BS EN 438 American NEMA LD 3 BIS (Bureau of Indian Standard) IS: 2046 BIS (Bureau of Indian Standard) IS: 2036 Grade P1 Phenolic/Electronic Insulation ISO 4586
